

CREATING AN EFFECTIVE AND USEFUL PRESERVATION ORDINANCE: ONE SIZE DOES NOT FIT ALL

2016 Local Government Education
Workshop Series

Office of Historic Preservation

THE STARTING QUESTION

You are considering the designation of a midcentury modern house as a historic landmark. The owner, who objects to the designation, has asked if the city has the right to do so.

How do you answer?

What is the legal basis for regulations related to preservation in your community?

**COMMISSION
AUTHORITY**

**The first issue facing any
local historic preservation
commission is whether it has
the legal authority to act.**

WHAT IS A HISTORICAL PRESERVATION ORDINANCE?

Provides Protection for Historic Resources

Local historic preservation ordinances are the laws that communities implement to protect historic preservation resources. These laws protect individual sites and areas, and they offer the strongest form of legal protection for historic properties. Each ordinance is tailored to fit the needs that best suit the individual community.

PENN CENTRAL TRANSPORTATION CO. V. NEW YORK CITY

Office of Historic Preservation - All

- We have] no fixed rule against making additions to designated buildings—it all depends on how they are done.... But to balance a 55-story office tower above a flamboyant Beaux-Arts facade seems nothing more than an aesthetic joke. Quite simply, the tower would overwhelm the Terminal by its sheer mass. The 'addition' would be four times as high as the existing structure and would reduce the Landmark itself to the status of a curiosity.
- Landmarks cannot be divorced from their settings — particularly when the setting is a dramatic and integral part of the original concept. The Terminal, in its setting, is a great example of urban design. Such examples are not so plentiful in New York City that we can afford to lose any of the few we have. And we must preserve them in a meaningful way — with alterations and additions of such character, scale, materials and mass as will protect, enhance and perpetuate the original design rather than overwhelm it.

PENN CENTRAL TRANSPORTATION CO. V. NEW YORK CITY

- *[The] New York City law does not interfere in any way with the present uses of the Terminal. Its designation as a landmark not only permits but contemplates that appellants may continue to use the property precisely as it has been used for the past 65 years: as a railroad terminal containing office space and concessions. So the law does not interfere with what must be regarded as Penn Central's primary expectation concerning the use of the parcel. More importantly, on this record, we must regard the New York City law as permitting Penn Central not only to profit from the Terminal but also to obtain a "reasonable return" on its investment.*

CERTIFICATES OF APPROPRIATENESS

Do your procedures look like this?

Or like this?

PUBLIC WELFARE v INDIVIDUAL RIGHTS

- What is a Taking?
 - Results from a regulation that deprives landowner of *all reasonable economic value* of property
- When does a Taking occur?
 - Designation rarely = taking
 - Less than *highest and best use* or *substantial diminution* does not = taking
 - Historic conditions = reasonable expectations of use of property

TAKINGS

TAKINGS

PUBLIC WELFARE V INDIVIDUAL RIGHTS

Physical Takings

- Eminent domain
- Just compensation

Regulatory Takings

- When a general governmental regulation has the unintended effect of denying the owner a reasonable economic use of a property

PENN CENTRAL TRANSPORTATION CO. V. NEW YORK CITY

Whether a regulatory action that diminishes the value of a claimant's property constitutes a "taking" of that property depends on a three part inquiry for analyzing a broad range of regulatory takings claims:

- The economic impact of the regulation on the property-owner;
- The effect of the regulation on the owner's distinct investment-backed expectation; and
- The character of the governmental action.

The opinion also established a rule requiring the reviewing courts look at the effect on the entire property interest (parcel as a whole), not just the part affected by the regulation in question.

Owners were not entitled to the so-called highest and best use, but rather to a reasonable and beneficial use of the property.
